Introduction

'Fashion is a cycle', or 'nothing new under the sun'; how often these clichés have been repeated, yet today there is nothing more true. The fashions and even the songs of the twenties have been revived, but each given a new treatment and a 'with it' slant. In the twenties crochet was in fashion and found a place both in the wardrobe and the home. In the intervening years its application did not change with the times and it was considered old-fashioned and was even ridiculed by some as being only suitable for the antimacassars.

How tragic it was to lose these lovely traceries of lace, because there was no one capable of transforming crochet into contemporary trends.

Now the pendulum has swung and crochet is back with a tremendous impact. It all started in Italy, where the fashion designers realised that the stitches of crochet, both simple and elaborate, could be used with success to form the fabric of elegant blouses, dresses and suits.

The fashion grew in importance and spread to the salons of Paris and London. Interior decorators then saw how the lace patterns could be used to give the personal touch to the home and also add subtle decoration, by the use of mats, runners and other articles developed from the traditional stitches. This book contains a varied collection of designs both for the home and the wardrobe. So now it is possible for everyone to take part in the crochet renaissance. For the beginner clear and simple instructions and diagrams show all the stitches that will be needed.

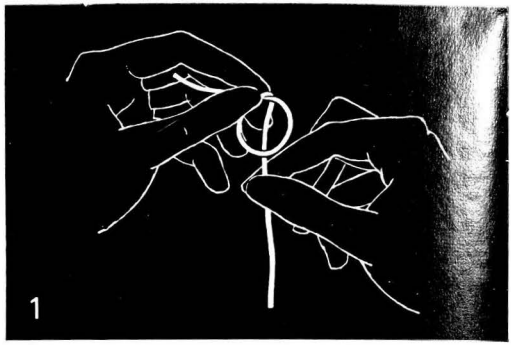
Instructions

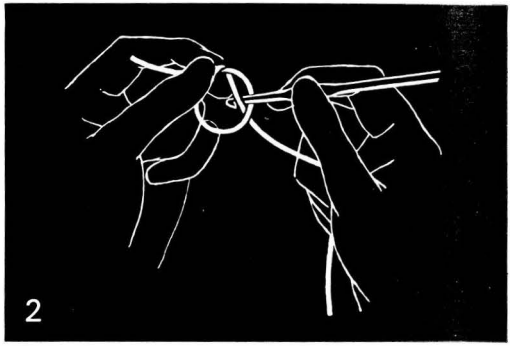
Hand positions

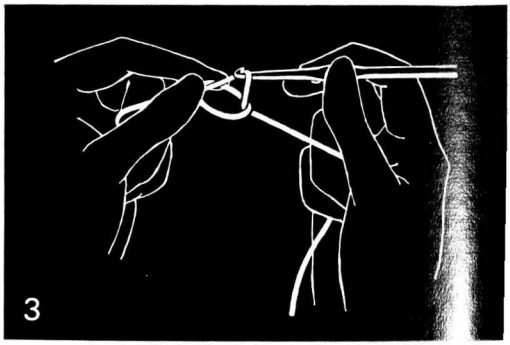
Right handed pupils work from right to left.

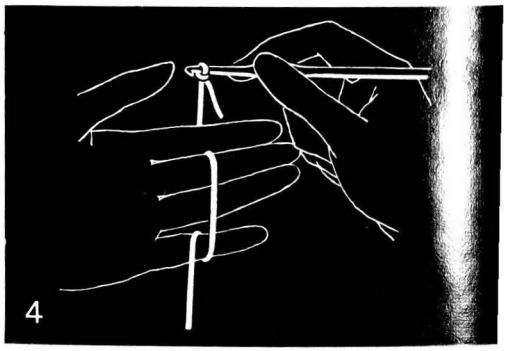
Left handed pupils work from left to right. The directions for each stitch apply to both right and left handed pupils.

For left handed pupils only; Place a pocket mirror to the left of each illustration and you will see the exact position in which you work reflected in the mirror.







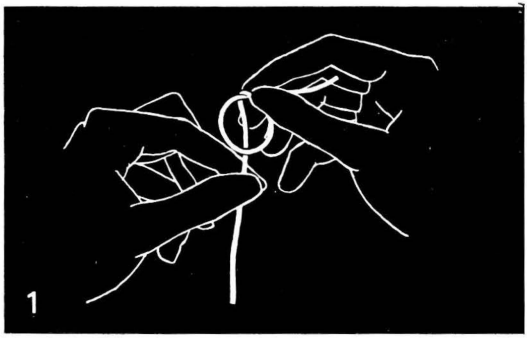


Step 1 - make a loop

1 Grasp thread near end between thumb and forefinger.

2 Make a loop by lapping long thread over short thread.

3 Hold loop in place between thumb and forefinger (Fig. 1).

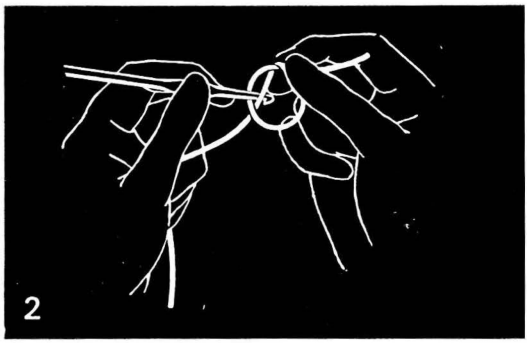


Step 2

1 Take hold of broad bar of hook as you would a pencil. Bring middle finger forward to rest near tip of hook.

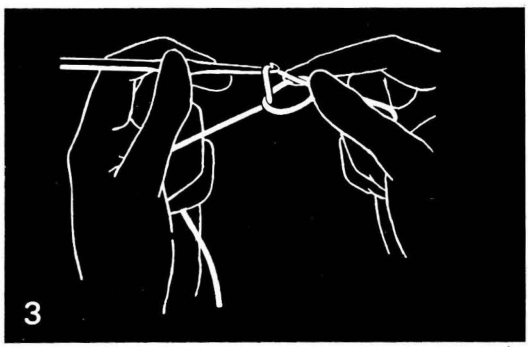
2 Insert hook through loop and under long thread. Catch long end of thread (Fig. 2). Draw loop through.

3 Do not remove hook from thread.



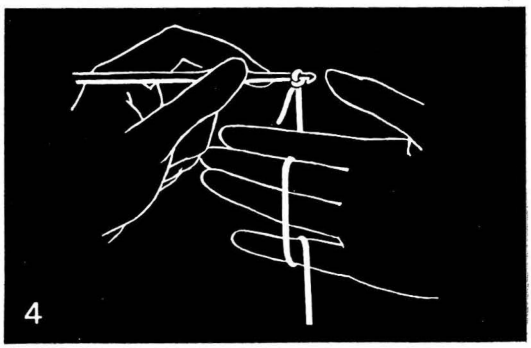
Step 3

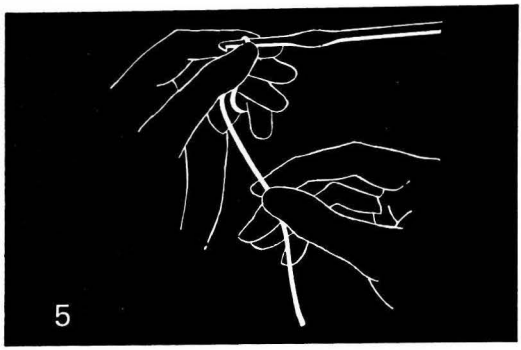
1 Pull short end and ball thread in opposite directions to bring loop close around the end of the hook, but not too tight (Fig. 3).



Step 4

1 Loop thread round little finger, across palm and behind forefinger (Fig. 4).



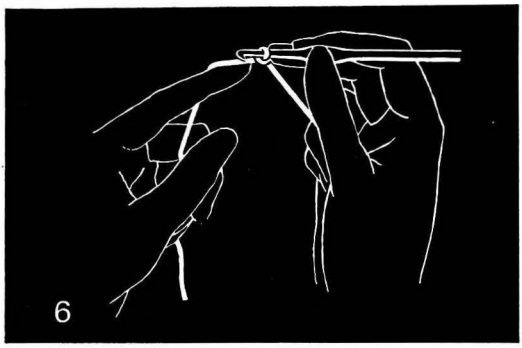


Step 5

1 Grasp hook and loop between thumb and forefinger.

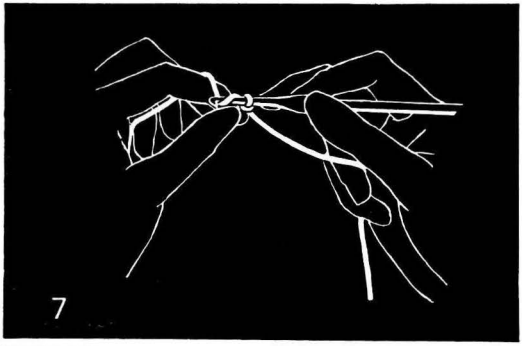
2 Gently pull ball thread so that it lies around the fingers firmly but not tightly (Fig. 5).

3 Catch knot of loop between thumb and forefinger.



Step 6 CHAIN STITCH (Abbreviation - ch)

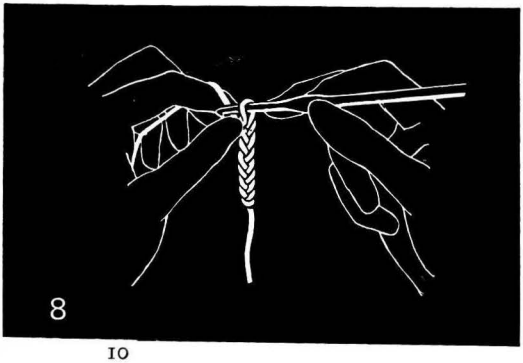
1 Adjust fingers as in Fig. 6 - the middle finger is bent to regulate the tension; the ring and little fingers control the thread. The motion of the hook in one hand and the thread in the other hand should be free and even. Ease comes with practice.



Step 7

1 Pass your hook under thread and catch thread with hook. This is called 'thread over' (Fig. 7).

2 Draw thread through loop on hook. This makes one chain (ch).

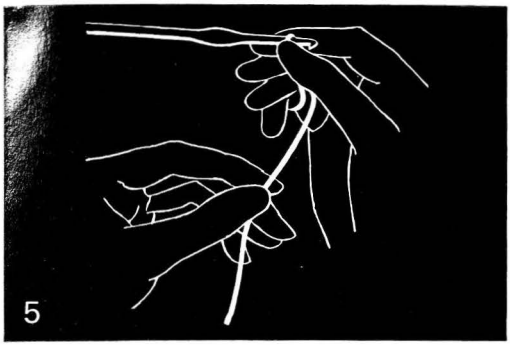


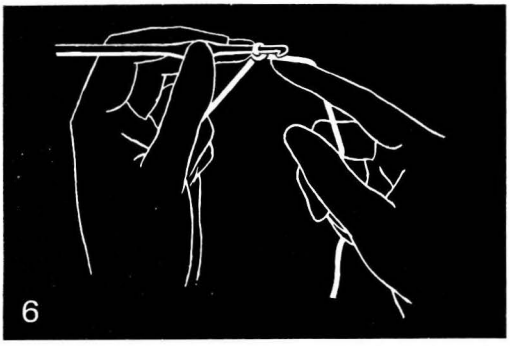
Step 8

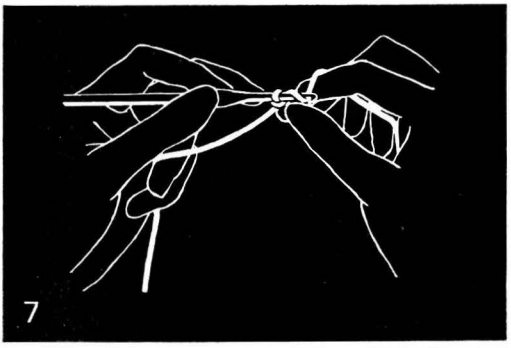
1 Repeat Step 7 until you have as many chain stitches (ch sts) as you need - 1 loop always remains on the hook (Fig. 8).

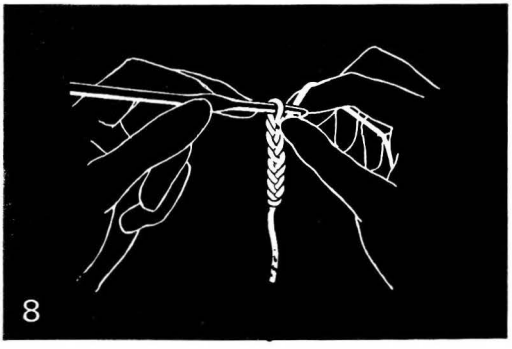
2 Always keep thumb and forefinger near stitch on which you are working.

3 Practice making chain stitches until they are even in size.









Slip stitch (abbreviation—ss)

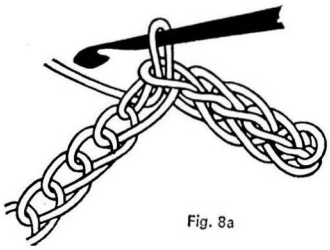


Fig. 8a

Insert hook from the front under the 2 top threads of stitch to left of hook, catch thread with hook and draw through stitch and loop on hook (Fig. 8a).

Abbreviations

ch—chain; dc—double crochet; hlf tr—half treble; tr—treble; dbl tr—double treble; trip tr—triple treble; quad tr—quadruple treble; quin tr—quintuple treble; sp(s)—space(s); st(s)—stitch(es); ss—slip stitch; sp(s)—space(s) = 2 ch, miss 2 ch or tr, 1 tr into next ch or tr; blk(s)—block(s) = 4 tr plus 3 tr for each additional block in group.

* Asterisk

Repeat instructions following the asterisk as many more times as specified in addition to the original. For example * 1 dc into next cluster, 1 dc into next loop, 2 ch, 1 tr into next dc, 2 ch, 1 dc into next loop; repeat from * 9 times more, means that there are 10 patterns in all.

Repeat instructions in parenthesis as many times as specified.

For example, '(3 ch, 1 dc into next sp) 5 times', means to make all that is in parenthesis 5 times in all.

Washing instructions

Coats Mercer-Crochet cotton

Use a warm lather of pure soap flakes and wash in the usual way, either by hand or washing machine. If desired, the article may be spin-dried until it is damp, or left until it is half dry. Place a piece of paper, either plain white or squared, on top of a clean, flat board. Following the correct measurements, draw the shape of the finished article on to the paper, using ruler and set square for squares and rectangles and a pair of compasses for circles. Using rustless pins, pin the crochet out to the pencilled shape, taking care not to strain the crochet. Pin out the general shape first, then finish by pinning each picot, loop or space into position.

Special points to note carefully when pinning out are:

(*a*) When pinning loops, make sure the pin is in the centre of each loop to form balanced lines.

(*b*) When pinning scallops, make all the scallops the same size and regularly curved.

(*c*) Pull out all picots.

(*d*) Where there are flowers, pull out each petal in position.

(*e*) When pinning filet crochet, make sure that the spaces and blocks are square and that all edges are even and straight.

If the crochet requires to be slightly stiffened, use a solution of starch (1 dessertspoonful to 1 pint hot water), and dab lightly over the article. Raise the crochet up off the paper, to prevent it sticking as it dries. When dry, remove the pins and press the article lightly with a hot iron.

Orlon baby knitting

'Orlon' baby clothes wash very easily, either by hand or machine. Use your usual soap flakes or detergent. Rinse thoroughly and roll in a towel to remove excess moisture. Lay flat and leave to dry away from direct heat.

DO NOT IRON.

Tension

Check this carefully before commencing your design as only the correct tension will ensure the best finished specimens. If your crochet is loose use a size finer hook, if tight use a size larger hook.

Linens

Old Bleach coloured linens are available to match or tone with the following shades of Mercer-Crochet: White, 402 (Lt Rose Pink), 442 (Mid Buttercup), 459 (Mid Sky Blue), 477 (Tan), 503 (Coral Pink), 573 (Laurel Green), 575 (Mid Laurel Green), 594 (Steel Blue), 609 (Ecru), 610 (Dk Ecru), 621 (Lt French Blue), 623 (Spring Green), 625 (Lt Beige), 761 (Lt Forget-me-not), 535 (Navy Blue), Spec. 8918 (Lt Coral Pink).

Coats Mercer-Crochet

A household word, Coats Mercer-Crochet possesses qualities which are of the utmost importance to the worker. It washes beautifully, never loses its colour or becomes 'stringy', is very elastic and preserves the beauty of the design. It is easy to work with, soft, glossy and of uniform thickness—it is the ideal crochet thread.

Crochet threads

Remember that texture plays an important

part in the beauty of crochet. The finer mercerised threads are more effective for the delicate designs used for table cloths, doilies, edgings and accessories, while the heavier threads are used for bedspreads, chairbacks, luncheon mats, etc.

Mounting crochet to linen

Launder crochet first as explained and pin to the required shape, ensuring that all lines of the crochet are accurate. Place crochet in correct position on linen and secure with pins. Run a line of basting stitches on the linen following the outline of the crochet edges which are to be attached to the linen. Remove Crochet.

Turn under a small hem, with fold lying on line of basting stitches and slipstitch. Overcast crochet to the hem.

Or

Cut fabric $\frac{1}{4}$ in. larger than required. Withdraw a thread $\frac{1}{4}$ in. from edge all round and turn back a small hem. Attach thread to any corner, 3 dc into same place, dc closely all round, working into space of drawn thread having 3 dc into each corner, 1 ss into first dc. The crochet edging may be sewn to edge of dc, or edging worked into dc, according to instructions.

Rows of double crochet (abbreviation —dc)

Note—In all crochet it is customary to pick up the 2 top loops (or threads) of each stitch as you work, unless otherwise specified.

Make a starting chain of 20 stitches for practice piece.

First row (1st row)

Fig. 9

Step 1 Insert hook from the front under the 2 top threads of 2nd ch from hook (Fig. 9).

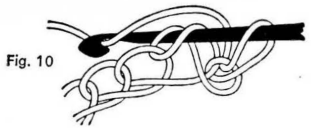

Fig. 10

Step 2 Catch thread with hook—this is known as 'thread over' (Fig. 10).

Fig. 11

Step 3 Draw thread through chain. There are 2 loops on hook (Fig. 11).

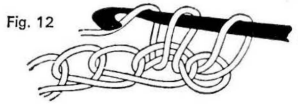

Fig. 12

Step 4 Thread over (Fig. 12) and draw through 2 loops—1 loop remains on hook.

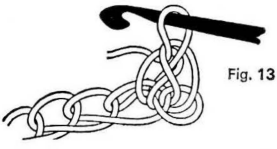

Fig. 13

Step 5 You have now completed 1 double crochet (dc) (Fig. 13).

Step 6 For next double crochet (dc) insert hook under 2 top threads of next ch and repeat Steps 2 to 6.

Step 7 Repeat Step 6 until you have made a double crochet (dc) in each ch.

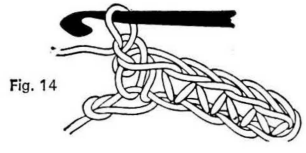

Fig. 14

Step 8 At end of row of double crochet, work 1 ch (Fig. 14).
This 1 ch enables you to turn your work more easily but does not count as a stitch on next row.

Fig. 15

Step 9 Turn your work so that the reverse side is facing you (Fig. 15).

Second row (2nd row)

Step 1 Insert hook from the front under the 2 top loops of first stitch (st)—the last dc made on previous row.

Step 2 Catch thread with hook ('thread over') and draw through st—2 loops remain on hook.

Step 3 Thread over and draw through 2 loops—1 loop remains on hook.

Step 4 For next double crochet (dc), insert hook from the front under the 2 top loops of next st and repeat Steps 2 and 3.

Step 5 Repeat Step 4 until you have made a double crochet (dc) into each dc, 1 ch and turn.

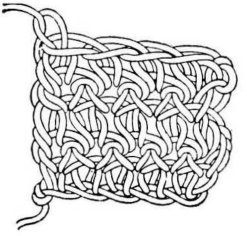

Fig. 16

Step 6 Repeat Second row (2nd row) until you are familiar with this stitch. Fasten off (Fig. 16).

How to 'fasten off'

Step 1 Do not make a turning chain at end of last row.

Step 2 Cut thread about 3 in. from work, bring loose end through the one remaining loop on hook and pull tightly (Fig. 16).

Rows of half treble crochet (abbreviation—hlf tr)

Notice when working rows of half treble (hlf tr) that there is an extra loop on the wrong side directly below the 2 top loops of each hlf tr. Work only into the 2 top loops of each stitch. Make a starting chain of 20 stitches for practice piece.

First row (1st row)

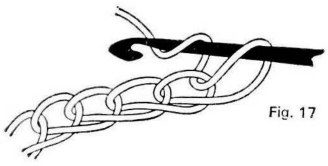

Fig. 17

Step 1 Pass hook under the thread of left hand (this is called 'thread over' Fig. 17).

Step 2 Insert hook from the front under the 2 top loops (or threads) of 3rd ch from hook.

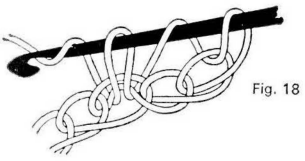

Fig. 18

Step 3 Thread over hook and draw loop through ch (3 loops on hook), thread over (Fig. 18).

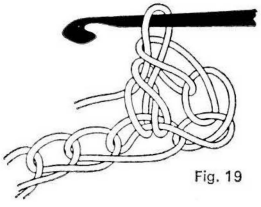

Fig. 19

Step 4 Draw through all loops on hook—1 loop remains on hook (Fig. 19). A half treble (hlf tr) is now completed.

Step 5 For next half treble (hlf tr), thread over, insert hook from front under the 2 top threads of next ch.

Step 6 Repeat Steps 3 to 5 until you have made a half treble (hlf tr) in each ch.

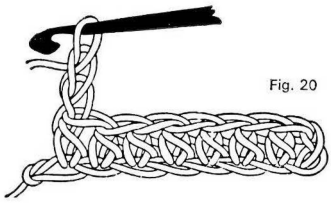

Fig. 20

Step 7 At end of row, 2 ch (Fig. 20) and turn.

The turning 2 ch does not count as a stitch on the following rows.

Second row (2nd row)

Step 1 Thread over hook, insert hook from front under the 2 top loops of first stitch (st)—the last hlf tr on previous row.

Step 2 Thread over hook and draw through stitch—there are 3 loops on hook, thread over and draw through all loops on hook.

Step 3 For next half treble (hlf tr), thread over hook, insert hook from the front under the 2 top loops of next stitch (st) and repeat Step 2.

Step 4 Repeat Step 3 until you have made a half treble (hlf tr) in each hlf tr, 2 ch and turn.

Step 5 Repeat Second row (2nd row) until you are familiar with this stitch. Fasten off at end of last row (Fig. 16).

Rows of treble crochet (abbreviation —tr)

Make a starting chain of 20 stitches for practice piece.

First row (1st row)

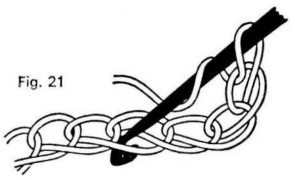

Fig. 21

Step 1 Thread over, insert hook from the front under the 2 top threads of 4th ch from hook (Fig. 21).

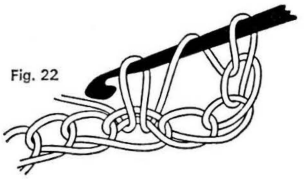

Fig. 22

Step 2 Thread over and draw through stitch (st). There are now 3 loops on hook (Fig. 22).

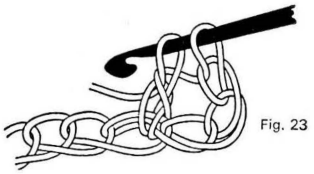

Fig. 23

Step 3 Thread over and draw through 2 loops—2 loops remain on hook (Fig. 23).

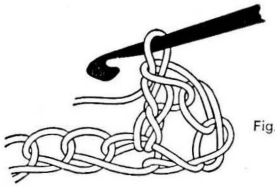

Fig. 24

Step 4 Thread over again and draw through the 2 remaining loops—1 loop remains on hook. One treble crochet (tr) is now completed (Fig. 24).

Step 5 For next treble crochet (tr), thread over, insert hook from the front under the 2 top loops of next stitch (st) and repeat Steps 2 to 5 until you have made a treble crochet (tr) in each st.

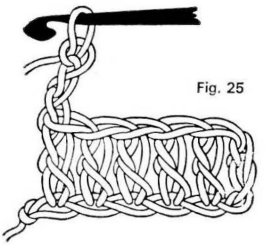

Fig. 25

Step 6 At end of row, 3 ch (Fig. 25) and turn. The 3 turning ch stand as 1 tr and count as the first st in the following row.

Second row (2nd row)

Step 1 Thread over, insert hook from the front under the 2 top loops of the 5th stitch from the hook (2nd stitch on previous row).

Step 2 Repeat steps 2 to 7 of first row. Repeat the second row until you are familiar with this stitch. Fasten off.

How to 'turn your work'

In rows of crochet a certain number of chain stitches are added at the end of each row to bring the work into position for the next row. Then the work is turned so that the reverse side is facing the worker. The number of turning chain depends upon the stitch with which you intend to begin the next row.

Turning chain

dc — 1 ch
hlf tr — 2 ch
tr — 3 ch
dbl tr — 4 ch
trip tr — 5 ch
quad tr — 6 ch
quin tr — 7 ch

The above list gives the number of turning ch for each type of stitch which would be used when the following row is to be commenced with the same stitch. When applied to any of the stitches bracketed, the turning ch also stands as the first stitch of the next row.

Rounds of double crochet

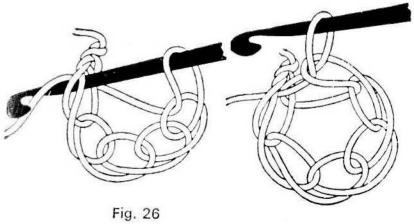

Fig. 26

Fig. 27

Step 1 Make a chain (ch) of 6 stitches (sts). Join with a slip stitch (ss) into 1st ch to form a ring (Figs 26 and 27).

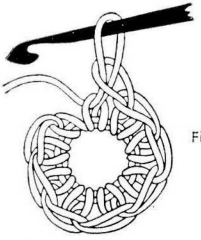

Fig. 28

Step 2—1st row Make 8 double crochet (dc) into ring (Fig. 28). Place a safety pin in the last dc of 1st row to mark end of row. Move the safety pin to the last dc of the following rows.

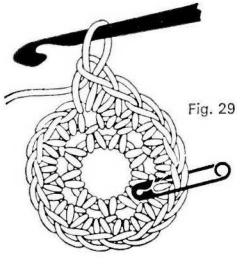

Fig. 29

S[illegible]—2nd row 2 double crochet (dc) i[illegible]ch dc of previous row—an increase [illegible]n each dc. There are 16 dc on row ([illegible]29).

St[illegible]—3rd row * 2 double crochet (dc) in[illegible]ext dc—an increase made in last dc (Fi[illegible]), 1 dc into next dc; repeat from * all [illegible]d (24 dc on row).

Co[illegible]ue working in rows of double crochet [illegible] required, working increases wherever necessary in order to keep work flat and ending last row with 1 ss into each of next 2 dc. Fasten off.

Double treble (abbreviation—dbl tr)

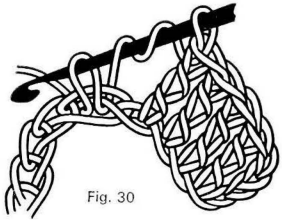

Fig. 30

Pass hook under the thread of left hand twice, insert hook into stitch to left of hook, thread over hook and draw through stitch (4 loops on hook) (Fig. 30). Thread over hook and draw through 2 loops on hook, thread over hook and draw through other two loops on hook, thread over and draw through remaining 2 loops (1 loop remains on hook).

Triple treble (abbreviation—trip tr)

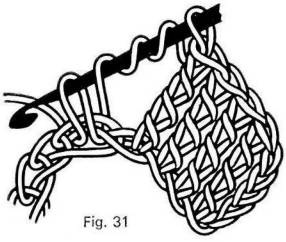

Fig. 31

Pass hook under the thread of left hand 3 times, insert hook into stitch to left of hook, thread over hook and draw through stitch (5 loops on hook) (Fig. 31). Thread over hook and draw through 2 loops on hook, (thread over hook and draw through other 2 loops on hook) 3 times, 1 loop remains on hook.

Quadruple treble (abbreviation—quad tr)

Pass hook under the thread of left hand 4 times and complete in same manner as trip tr until only 1 loop remains.

Quintuple treble (abbreviation—quin tr)

Pass hook under the thread of left hand 5 times and complete in same manner a strip tr until only 1 loop remains.

Picot (abbreviation—p)

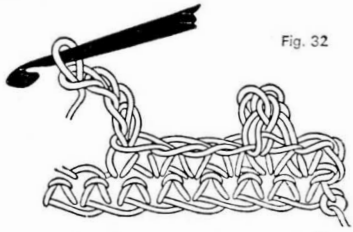

Fig. 32

Make a ch of 3, 4 or 5 sts according to length of picot (p) desired, join ch to form a ring working 1 dc into foundation or first ch (Fig. 32).

Clusters (abbreviation—cl)

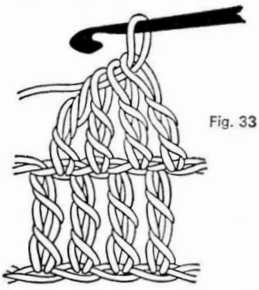

Fig. 33

Clusters may be worked in the following ways:

(*a*) A cluster worked over a given number of sts. Leaving the last loop of each on hook, work 1 dbl tr into each of next 4 sts, thread over hook and draw through all loops on hook (a 4 dbl tr cluster made) (Fig. 33).

Fig. 34

(*b*) A cluster worked into one stitch. Leaving the last loop of each stitch on hook, work 3 or more stitches into same stitch on previous row, thread over and draw through all loops on hook (Fig. 34).

(*c*) A cluster worked into loop or space. Leaving the last loop of each stitch on hook, work 3 or more stitches into space or loop on previous row, thread over and draw through all loops on hook (Fig. 35).

Fig. 35

Filet crochet

The following four stitches are used mostly in Filet Crochet and are referred to as spaces, blocks, lacets and bars.

Space (abbreviation—sp)

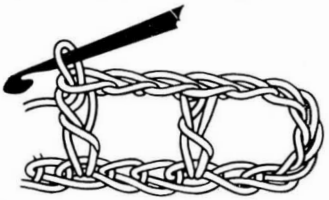

Fig. 36

Spaces are made with 2 ch, miss 2 stitches, 1 tr into next stitch (Fig. 36).

Blocks and spaces (abbreviations—blks and sps)

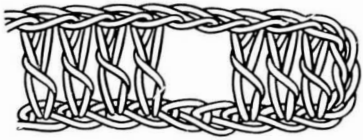

Fig. 37

Work 1 tr into each of next 4 stitches, 2 ch, miss 2 stitches, 1 tr into next stitch, 1 tr into each of next 3 stitches (Fig. 37).

Bar and lacet

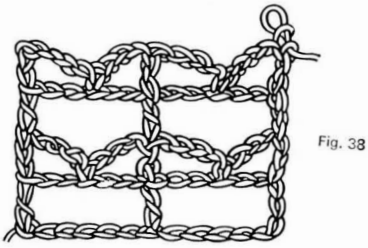

Fig. 38

(*a*) A bar consists of 5 ch, miss 5 stitches or a lacet, 1 tr into next stitch.

(*b*) A lacet consists of 3 ch, miss 2 stitches, 1 dc into next stitch, 3 ch, miss 2 stitches, 1 tr into next stitch (Fig. 38).

2nd row * 1 dc over double loop at right of centre of next knot, 1 dc over double loop at left of same knot, 1 solomon's knot; repeat from * omitting 1 solomon's knot at end of last repeat, $1\frac{1}{2}$ solomon's knots, turn. Repeat 2nd row for length required omitting $1\frac{1}{2}$ solomon's knots at end of last row.

Crochet hook size comparison chart

As from 1 July 1969, European Crochet hook manufacturers will be changing over to the New International Standard Range of crochet hooks. This chart shows both present and new ranges. The new range is illustrated in actual size, with the new size numbers alongside. There will be a changeover period of three to four years, at the end of which the old sizes will be withdrawn. Where the New International Standard Range has at present equivalents in steel and Disc (aluminium) crochet hooks, the steel hooks will be phased out. From this chart it will be easy to make comparisons between the old sizes as well as the new sizes which will be referred to in patterns in future.

Important—Crochet workers should observe one basic rule: this is to adhere to the 'tension' stated in the instructions as only the correct tension will ensure the best result. It is desirable to work with the size of crochet hook quoted as this has been selected as the most suitable size for the thickness of yarn being used. If your tension is loose use a size finer hook, if tight use a size larger hook.

By reference to the comparison chart it will be seen that the new range provides an adequate number of sizes to work all old patterns and to obtain the 'tension' required.
